

Soul strip

A MiniLarp for 3 participants

By Larson Kasper, Stefan Deutsch & Taisia Kann

Duration: 30 - 45 min

Space: a wardrobe or similar small room

Other requirements: none

As players you are nude and sit in a wardrobe. This can be filled with clothes or not (you can use your own). You play three different aspects of the same person. This person has just been part of adultery and some certain third party came home way too early and pretty unexpected. You're not quite sure if it was a smart move to get into the closet but at least you fulfilled the cliché.

The three aspects of the same person now reflect on what happened, discuss about how it came to be and what do next.

Choose one of the **aspects**.
